# e-Business Cloud Reporting

Amalto's e-Business Cloud provides meaningful reports and insights to analyze and better manage your business. It allows you to easily account for every quote, order, field ticket, invoice and more to gain access to real-time data that drives your business so that you can not only make better decisions but deliver better service.
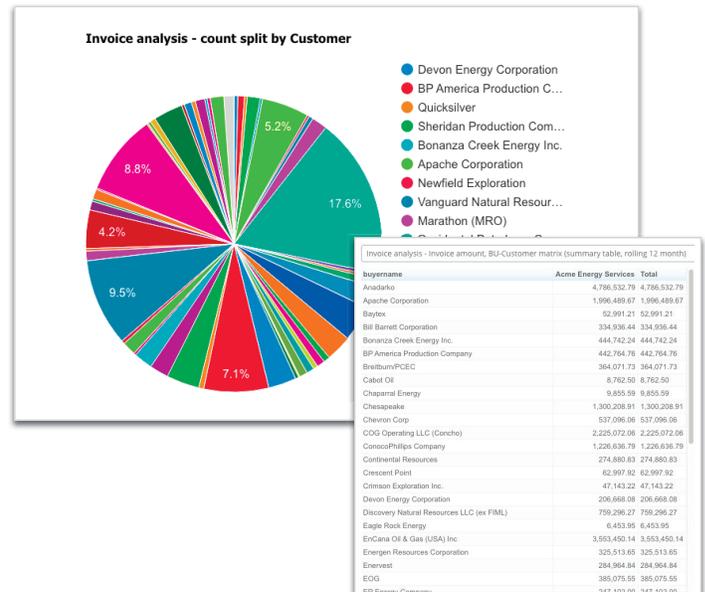

Report Types: Gain Access to Real Time Data

Invoice analysis - count split by Customer

Invoice analysis - Invoice amount and count per month

- Invoice Analysis Reports
- DSO Analysis Reports
- Custom Reports can be built based on clients requirements

Report Formats:

- Online Graphical Reports
- Downloadable Excel Reports

Use Reports for Better Business Management

Analyze what goes through your Amalto e-Business Cloud solution such as invoices, POs, and more to see how invoices are broken down by customers, business units & locations along with what invoices have been delivered, rejected, or missing attachments.

Additional ways the reports can be used:

- View invoice amounts & counts billed each day/week/month/year, sales order creation to invoice time, sales order volumes by sales person, any exceptions - sales orders not invoiced
- Actionable exception reports based on invoice status
- Calculate your invoice success rate to track the time spent between creating the invoice and delivering it to the customer

Features & Benefits

- Gives you the visibility needed to analyze and better manage your business with meaningful reports and insights
  - View KPIs to determine your success rate
- Provides multiple types of configurable reports
